COLLISION AT SEA

NEW YORK, Sept. 6 .- A Montreal special gives the following: The steamer Harworth, with 2,000 steel rails, from Barrow Infumers, came in collision with a huge iceberg, in the straits in Bell Island, on Saturday night, the 28th, which smashed a hole in her bow some twenty feet in width, breaking her stern to atoms and giving her an involuntary deck load of tons of ice, which toppled cers as agreed upon at a meeting over upon her from the iceberg and threatened to sink her by sheer weight. She careened so much that her stern was lifted high up out of Senator Harris Takes the Stump for the water and threatened to pitch her bow-foremost into the depths. All was confusion in a moment, as the collision was unlooked-for. The night being clear and star-lit, the watch had been mistaken as to the iceberg. They believed it to be part of the overhanging clouds, and when the crash came two of them were thrown into the water. Boats were lowered, manned and in readiness to leave the vessel. An examination showed she would float, and the crew set to work to repair the damages. John Randall, who had gone overboard, was never seen again. His companion in mis-Hon. H. H. Departure of John Scherf.

Mr. John Scherf, late proprietor of the Lamar bouse, left on the early train for his new home at Columbus Ga. For many years past John Scherf has been a prominent and worthy citizen of Knoxville. He was always up to the scratch in energy and enterprise, courteous and obliging, and had the city's interess ever at heart. As a model host of that popular hotel, the Lamar house, he has formed attachments, not only with our citizens, but the travelling public, which time only

will sever. In fact Knoxville become to seem more his departure from the mother country was nothing like such a task, "but the best of friends must part." These ties of attachment are, we are quite sure mutual. My Scherlis universally regarded by all classes of our citizens we are very safe in the assertion that he leaves not an enemy in the city.
